## **Department of Veterans Affairs selects Proquis Enterprise**

The Department of Veterans Affairs, Technology Acquisition Center, Eatontown, NJ, has selected and contracted with Proquis Inc. Schaumburg IL, to supply, install, configure and implement their electronic Document Control and Quality Management System – Proquis Enterprise.

The project is to support, enhance, and sustain the deployment of an Integrated Quality Management System (iQMS) that enhances business processes and reliability as well as supporting ISO 9001:2008 standards within the Veteran Health Administration (VHA) organization.

Proquis Enterprise QMS software has been supplied to a wide range of organizations around the world for over 10 years and directly supports ISO 9001:2008 conformance through control of documents and records required by the VHA.

The contract is expected to last 5 years with Proquis Inc, providing a range of services as well as their software. The rollout will extend use of Proquis Enterprise to 165 sites and with around 200 users per site. The value of the project is expected to be over \$10m.

“This is a very exciting project and we look forward to working with the VHA. We have worked with VHA Laboratories over many years however this project is for the Sterile Processing Department handling reusable medical equipment. They have a clear objective of improving business processes and standardizing good quality management. There is no doubt that the VHA are dedicated to improving patient care using highly efficient and exceptional quality processes and systems, we are

pleased to be able to assist with these developments” stated David Best, Proquis COO.
